

ZEPHIRO HAZE 1000ST

1000W Water-Based Stage Haze Machine with DMX Control

It is well known how the world of show business and entertainment is based on the fusion of music, images, lights and environmental effects. The sensory involvement of those who enjoy the entertainment event is increasingly present nowadays. Centolight knows very well this need and thanks to the the Zephiro line it offers a wide range of machines for smoke, fog, bubbles, snow and more.

Zephiro Haze 1000ST is a powerful and compact water-based fog machine; designed for professional on-stage applications and equipped with flight case and DMX control.

It can generate a persistent and homogeneous haze which can maximize the visual effects and light beams of any type of spotlight in settings such as theaters, photo and TV studios, film sets, discos, live events, etc.

It has a power output of 1000W and is designed for indoor applications with an output of 170m³/min of haze.

Consumption ranges from a minimum of over 4h/Liter at 30% to about 2h/Liter at 100% (continuous operation); the internal tank is 2 liters.
